SOURCE:

A poster with the text given in translation below is reportedly displayed at the Danube-Black Sea Canal project.

If the eating time is stretched one hour in the morning and two hours at noon time at all the Canal yards, 24,000 hours are lost in one working day.

That means:

Time necessary to build 1 according to the Stakhanovist method 48,000 cubic meters of masonry.

Time necessary to plaster 20,000 square meters of walls.

Time necessary to excavate 40,000 cubic meters of dirt, and the shifting of same by horse carts.

Time necessary to give the final touches to 24,000 square meters of stone wall.

Time necessary for the construction of six barracks.
